2005 *WE&T* Author and Subject Index

A

Acid rain
- Stunts tree growth 17(8):14

Activated sludge
- And digester performance 17(6):51-56
- Biological wet weather treatment 17(12):52-57
- IFAS options 17(11):18-22

Adham, Samer 17(3):32-39, 41-47

Aeration
- Dissolved oxygen monitoring lead for energy savings 17(7):49-52
- Fine-bubble ___ to reduce odors 17(3):58-61
- Preventing excess 17(8):40-44
- Variable frequency drives to control 17(11):42-48

Aerobic treatment processes
- High-purity oxygen 17(4):58-61
- Integrated fixed-film activated sludge 17(3):62-66; 17(11):18-22, 23-27
- Optimizing digester performance 17(6):51-56
- Quiz, anaerobic digestion 17(6):67
- Thermophilic digestion to reduce volatile sulfur compounds 17(5):58-61

Agbodo, Mike 17(8):27-35

Agriculture
- Anaerobic bacteria denitrify livestock wastewater 17(12):6
- Cutting livestock-farm emissions 17(4):20; 17(5):13-14
- Drainage management studies 17(12):51
- Energy generated from manure 17(12):8
- Farm runoff and algal blooms 17(4):8-10
- Impact of fertilizers and pesticides 17(5):37-41
- Ireland's nitrates action program 17(10):22-24
- Livestock-farm operators pact 17(12):18-20
- Plants absorb more contaminants 17(5):6-10
- Resources for managing CAFOs 17(1):18
- Software to minimize pesticide drift 17(12):11-13
- U.S. water policy 17(7):6-9
- Water reuse 17(12):48

Air emissions
- Biofilters for odor control 17(5):26-32

Algae
- Farm runoff and algal blooms 17(4):8-10
- NOAA field guide to algal blooms 17(10):59
- Spraying keeps ___ under control 17(10):196-197

Alkalinity
- Biological effects upon 17(10):96-100

Allen, Eleanor 17(3):58-61

Alvord, Harold 17(5):53-57

Ammonia
- Control by integrated fixed-film activated sludge 17(3):62-66

Anaerobic treatment processes
- Sampling success 17(8):20-26
- To control filamentous sludge bulking 17(4):53-57

Annalla, Howard 17(8):55; 17(9):72

Apgar, Dick 17(5):26-32

Aquatic life
- Cadmium and oysters 17(10):59-60
- Decline in Georgia's blue crab population 17(3):9
- EDCs in wastewater 17(3):24-31
- Fish safe near former test site 17(12):49
- Ocean biology changing 17(8):6
- Reservoirs may accelerate spread of invasive species 17(9):6
- Synthetic musks evade treatment 17(2):6

Arsenic
- Coal ash helps filter 17(5):6
- In drinking water 17(12):50
- Innovative removal technologies 17(5):23
- Levels depend on bacteria populations 17(9):15
- Microbes could cleanse arsenic contamination 17(2):8-9
- Prize for arsenic-removal system 17(4):18

Asset management
- And service levels 17(7):36-40
- Breaking cycle of reactive work 17(2):23-26
- Practical approaches to 17(7):32-35
- Reducing capital project costs 17(10):62-65

Automation
- Defining a self-cleaning cycle for a pump station 17(6):61-66
- Helps plants maintain peak performance 17(9):36-42
- Sewer modeling software 17(8):27-35

Awards
- 2005 U.S. EPA Clean Water Act ___ 17(11):49-58
- Oregon student wins U.S. Stockholm Junior Water Prize 17(9):34
- Prize for arsenic-removal system 17(4):18
- WEF ___ 17(11):28-33

B

Bailey, Walter 17(4):49-52

Baldwin, Elizabeth 17(4):49-52

Ballasted flocculation
- Foaming in wet weather 17(12):58-63

Barnard, James L. 17(8):40-44

Barnes, Jennifer 17(3):58-61

Barrett, Ray 17(4):35-39

Bashaw, Walter G. 17(3):54-57

Bastian, Robert 17(5):33-36

Beaches
- And illnesses 17(9):11-14
- EPA closure report 17(10):26
- German ___, overall water quality 17(10):20-22
- Lunar cycle affects coastal water quality 17(11):7
- Pathogen criteria rule 17(2):11-12

Beekman, Carol 17(9):63-66

Bertera, Bill 17(1):80; 17(3):88; 17(5):80; 17(7):72; 17(12):112

Bhandari, Alok 17(12):58-63

Bienlien, K.D. 17(4):28-33

Bierl, Ray 17(7):53-57

Biochemical oxygen demand
- Basics of advanced clarification 17(12):64-69
- Biological wet weather treatment 17(12):52-57
- Carbonaceous ___ 17(10):101-102
- Using MBRs to reduce 17(3):32-39

Biofilters
- For odor control 17(3):54-57, 58-61; 17(5):26-32

Biogas
- Electricity generation 17(9):48-53

Biosolids
- 2005 U.S. EPA Clean Water Act Awards 17(11):49-58
- Cost-effective methods for managing 17(4):28-33
- Drying to Class A specifications 17(4):35-39
- EPA proposes bacteria detection methods 17(10):18
- Thermal sludge treatment 17(5):33-36
- Sampling success 17(8):20-26
- Thermophilic anaerobic digestion 17(5):58-61

Bishop, Jim

Bistany, Andrea 17(9):36-42

Blanchard, J. C. 17(9):60-62

Blending
- Congress hears policy debate 17(7):13-17
- Postmortem 17(7):72

Bourgeous, Keith 17(2):35-40

Bower, Bob 17(4):53-57

Bratby, John R. 17(12):52-57

Brewer, Linda 17(9):63-66

Brown, Christopher H. 17(12):84-86

Brunner, Todd A. 17(8):45-49

Bufe, Mary 17(1):24-28; 17(2):14-16; 17(3):17-22; 17(4):40-43; 17(6):17-22; 17(9):20-24; 17(12):24-28

Burrowes, Peter 17(5):26-32

Burror, Jim 17(1):50-58; 17(4)28-33

Business and finance
- Disaster preparedness and response planning 17(12):74-76
- Energy management 17(7):46-48
- Succession planning 17(2):48-52
- Predictive maintenance 17(7):58-62

Butler, Richard C. 17(8):20-26

C

Cambridge, Derek 17(8):40-44

Campanella, Kevin V. 17(12):52-57

Cantwell, Joe 17(7):46-48

Cassel, Alan 17(4):49-52

U.S. Centers for Disease Control (CDC)
- West Nile virus 17(10):42-46

Centrifuge
- Handles increased solids volumes 17(2):64
- Thickening 17(1):50-58

Certification quiz
- Anaerobic digestion 17(6):67
- Collection system safety 17(12):87-89
- Energy management 17(7):64
- Filtration 17(5):62
- Instrumentation 17(4):62
- Lagoons and ponds 17(1):69
- Maintenance 17(9):72
- Odor control 17(3):67
- Ozone 17(10):105
- Pumps 17(8):55
- Safety and working conditions 17(2):61

Cesca, Josef 17(3):58-61

Chenikoff, Rochelle 17(2):57-60

Chesapeake Bay
- Increasing pollution in U.S. coastal waters 17(9):8-11
- Nutrient limits 17(3):14

China
- Access to clean water 17(5):15
- City to use seawater to flush toilets 17(5):16
- Drinking water standards 17(6):13
- Municipality pushes indoor toilets 17(1):18
- Pledges clean drinking water for rural residents 17(2):11
- Rivers major source of pollution 17(3):14
- Shanghai to clean up restrooms 17(1):20

Chlorine
- Induction mixing 17(8):45-49

Christen, Kris 17(1):23-24; 17(2):16-19; 17(4):21-

2005 INDEX

27; 17(5):18-22; 17(6):14-16; 17(7):17-24; 17(8):9-13; 17(10):31-38, 42-46; 17(11):11-15
Clarification
Basics of advanced ___ 17(12):64-69
Controlling industrial TSS 17(3):79-80
Hydraulic drive system restores life to clarifier 17(8):65
Clean Water Act
ASCE Report Card on infrastructure 17(6):17-22
Broader approach to watershed management 17(6):32-37
EPA's integrated water quality report 17(10):22
EPA's proposal to revise ___ analytic procedures 17(1):16
Thermal sludge treatment 17(5):33-36
Water programs drained in budget 17(4):15-17
Clouse, Steve 17(9):48-53
Collection systems
Changing sewer grease from liability to asset 17(8):16-19
CSOs and consent decrees 17(12):46-47
Detecting illicit connections 17(5):49-52
Digital inspection 17(9):67-71
Empowering employees to minimize CSOs 17(2):27-30
Inspecting with focused electrode leak location 17(12):84-86
Managing private property laterals 17(7):26-31
Modeling of self-cleaning pump station 17(6):61-66
Quiz 17(12):90
Safety during in-line pipe inspections 17(12):87-89
Sewer modeling software 17(8):27-35
Computers
Automation helps plants maintain peak performance 17(9):36-42
Computerized operations and maintenance manuals 17(9):60-62
Database for prioritizing maintenance 17(4):49-52
Distance learning 17(2):53-56
For maintenance scheduling 17(7):53-57
Geographical information system 17(9):67-71
Construction
Cluster systems 17(9):43-47
Green building 17(3):17-22
New Orleans rebuilds 17(12):21-22
Reconstructing Iraq 17(10):70-75
Reducing capital project costs 17(10):62-65
Rising costs for utilities 17(10):31-33
Conway, Kevin D. 17(6):61-66
Cowee, Jeffrey D. 17(6):61-66
Cox, Huub H.J. 17(5):58-61

D

Daigger, Glen T. 17(4):58-61
Dailey-Fischer, Mary 17(2):48-52
da Silva, Viraj 17(10):70-75
deBarbadillo, Christine 17(1)31-35; 17(6):24-31
DeCarolis, James 17(3):32-39; 41-47
Decentralized treatment
Cluster systems 17(9):43-47
Recirculating sand filters 17(1):64-68
Denitrification
Evaluating filters 17(6):24-31
Desalination
Utilities need diversified water portfolio 17(10):76-80
Digestion
Anaerobic ___ and activated sludge 17(6):51-56
Anaerobic thermophilic 17(5):58-61
Cost-effective biosolids management 17(4):28-33
Disaster recovery
Gulf Coast cleans up 17(12):36-42
Helping Katrina victims 17(12):28-33
Iraq reconstruction 17(10):70-75
Mosul Dam reconstruction 17(12):18
New Orleans rebuilds 17(12):21-22
Population surge in Baton Rouge 17(12):24-28
U.N. program to recover Iraqi marshlands 17(11):10
Utilities prepare for extreme weather 17(9):20-24
Disinfection
And water reuse 17(8):60
Byproduct of chloramine ___ highly toxic 17(1):6
Chemical safety 17(5):46-47; 17(10):86-88
Emerging viruses 17(2):18-19
Induction mixing 17(8):45-49
Oxidation-reduction potential 17(8):45-49
Performance affected by particle accumulation 17(2):35-40
Sick from being too clean 17(2):14-16
U.S. Airlines to improve 17(1):16
Dissolved oxygen
Controlling in anoxic zones 17(8):50-54
Measurement using luminescent probe 17(7):49-52
Reliable control 17(2):41-43
Dombrowski, Paul 17(5):53-57
Donaldson, Bob 17(8):16-19
Dow, Geoff 17(1):59-63
Drinking water
Arsenic in 17(12):50
Byproduct of chloramine disinfection highly toxic 17(1):6
Caution urged in microbial source tracking 17(5):24
Coal ash helps filter arsenic 17(5):6
Congress pulls MTBE liability protection from energy bill 17(10):34-38
EPA contaminant list 17(5):17
EPA's 2006 clean water priorities 17(7):10
In China 17(2):11; 17(6):13
Infrastructure issues 17(6):17-22
Lead in drinking water 17(12):10-11, 43-45
Potable water for military personnel 17(11):74-75
Prize for arsenic-removal system 17(4):18
Sustainable source waters 17(5):18-22
Trihalomethanes may not increase miscarriages 17(11):6
U.S. Airlines to increase monitoring 17(1):16
Viruses in groundwater 17(1):30
Water resource management 17(5):37-41
Water reuse and getting past the 'yuck factor' 17(11):11-15
Dryers
Safety issues 17(4):35-39

E

Easter, Chris 17(5):26-32
Education, public
For odor problems 17(3):58-61
Suggestions for improving 17(9):63-66
Endocrine disruptors
EDCs in wastewater 17(3):24-31
Emerging contaminants 17(9):30-33
Mutating fish 17(1):24-28
Energy management
Electricity generation 17(9):48-53
Hydrogen fuel cells 17(8):9-11
Manure used to generate power and heat 17(1?):8
Optimizing 17(7):46-48
Quiz 17(7):64
Through dissolved oxygen monitoring 17(2):41-43; 17(7):49-52
U.S. water policy 17(7):6-9
Variable frequency drives for aeration 17(11):42-48
Variable- versus constant-speed pumps 17(6):57-60
Enforcement
Enforcement of wet weather rule 17(1):21
Environmental management systems
Resource centers open 17(1):21
U.S. Environmental Protection Agency (EPA)
2005 Clean Water Act Awards 17(11):49-58
2006 clean water priorities 17(7):10
2006 Water Program Guidance 17(9):24-25
Alternate discharge limits for iron and steel plants 17(10):18-20
Beach closure report 17(10):26
Blending postmortem 17(7):72
Broader approach to watershed management 17(6):32-37
Chesapeake Bay nutrient limits 17(3):14
Congress hears blending policy debate 17(7):13-17
Cooling-water intake regulations 17(1):17-18; 17(2):12
Cooperates with Army Corps in watershed approach 17(3):16
Cutting livestock-farm emissions 17(4):20; 17(5):13-14
Defining critical condition of TMDLs 17(6):38-42
Drinking water contaminant list 17(5):17
Emergency response exercises on CD 17(5):14-15
Enforcement of wet weather rule 17(1):21
Environmental resource centers 17(1):21
Great Lakes initiatives 17(2):10; 17(11):9-10
Hazardous waste rules revised 17(5):16-17
Integrated water quality report 17(10):22
Livestock-farm operators pact 17(12):18-20
New administrator 17(6):14-16
New deputy administrator in water office 17(12):14-16
Nonpoint source in wetlands 17(11):9
NPDES state profiles released 17(3):15
Pathogen criteria rule 17(2):11-12
Perchlorate controversy continues 17(4):23-27
Permitting policy for pesticides 17(4):19
Proposes bacteria detection methods 17(10):18
Resources for managing CAFOs 17(1):18
State wetland report 17(7):10-11
Stormwater permits 17(5):14, 16
Superfund Web site in Spanish 17(12):16
Water programs drained in budget 17(4):15-17
Water quality handbook 17(1):17
Water resources management on U.S.–Mexican border 17(5):14
Water reuse guide 17(1):18
Withdraws analytic procedures proposal 17(1):16
Erdal, Zeynep K. 17(4):58-61
Europe
EC faults UK for noncompliance on wastewater laws 17(3):14
EU reports on groundwater protection law proposal 17(5):14
Coastal water quality good, inland waters need work 17(9):18
Cocaine levels in Italian wastewater

17(10):24-26
Cutting diffuse pollution in England 17(12):20
German beach waters, overall water quality 17(10):20-22
Improved water quality in U.K. 17(9):16
Integrated fixed-film activated sludge at German facility 17(11):23-27
Ireland's nitrates action program 17(10):22-24
Ireland's quality of recreational waterbodies 17(7):11
Netherlands wastewater regulations 17(4):18-19
Public–private water partnership in Ireland 17(12):14
Romanian small communities project 17(10):28
Scottish EPA plans 17(9):16-17
Water issues top concern in EU 17(7):11
Everglades
New restoration phase 17(4):40-43
Exster, Alex 17(2):41-43

F

Facility design
Upgrading to integrated fixed-film activated sludge 17(3):62-66; 17(11):18-27
Falkner, Dean 17(6):51-56
Fan, Steve 17(5):58-61
Fate of pollutants column
Ammonia–nitrogen 17(12):91-92
Carbonaceous biochemical oxygen demand 17(10):101-102
Total suspended solids 17(11):59-60
Fats, oil, and grease
Changing sewer grease from liability to asset 17(8):16-19
Total suspended solids 17(11):60-62
Ferguson, Linda 17(4):58-61; 17(12):64-49
Filtration
Cloth solids ___ 17(10):194
Disinfection performance affected by particle accumulation 17(2):35-40
Evaluating denitrification filters 17(6):24-31
For water reuse 17(8):62-64
Integrated membrane systems 17(3):41-47
MBR performance 17(3):32-39
Quiz 17(5):62
Recirculating sand ___ using crushed glass 17(1):64-68
Finger, Richard E. 17(8):20-26
Fish
Call to end discards 17(2):20
Ceramic 'sponge' absorbs mercury 17(1):23
EDCs in wastewater 17(3):24-31
Mutating ___ 17(1):24-28
Nutrient runoff affects commercial fishing 17(6):6
Fitzpatrick, Jim 17(12):58-63
Foaming
In wet weather ballasted flocculation 17(12):58-63
Freedman, Steven D. 17(12):52-57

G

Gagnon, Graham A. 17(1):64-68
Gaha, James 17(2):23-26
Geographic information system
For pipeline inspection data logging and retrieval 17(9):67-71
U.S. Geological Survey (USGS)
Caution urged in microbial source tracking 17(5):24
Emerging contaminants 17(9):30-33
USGS upgrades turbidity data reporting 17(2):10
Water programs drained in budget 17(4):15-17
U.S. Government Accountability Office (GAO)
Implementing security measures 17(7):19-24
Report on EPA's role in Great Lakes initiative 17(11):9-10
Report on wastewater system security risks 17(5):15-16
Global warming
Changes in hydrological cycle 17(5):10-12
New data indicate threat 17(5):18
Good, Jim 17(10):93-95
Gould, Tom 17(10):66-69
Granger, Mark 17(7):58-62
Great Lakes
Ecosystem protection pact 17(2):10
EPA role in initiative 17(11):9-10
NOAA field guide to algal blooms 17(10):59
Protection of St. Lawrence Basin waters 17(3):14
Pathogen criteria rule 17(2):11-12
Grounds, Jude 17(3):32-39
Groundwater
And surface water 17(5):37-41
Arsenic levels depend on bacteria populations 17(9):15
Budget cuts threaten water quality monitoring 17(3):12-13
EU reports on ___ protection law proposal 17(5):14
MTBE in 17(10):8
Microbes could cleanse arsenic contamination 17(2):8-9
Perchlorate controversy continues 17(4):23-27
Researchers unlock toxic metal mystery 17(2):6
Riverbed prevents chemical contamination 17(3):9-10
Satellites help find water in Africa 17(1):29
Viruses 17(1):30

H

Habben, Craig 17(4):53-57
Hallahan, Dennis F. 17(9):43-47
Hamilton, Pixie 17(5):37-41
Harrison, Karen 17(3):54-57
Harris, Rhonda E. 17(10):90-92; 17(12):87-89
Hartford, Peter 17(9):67-71
Hatoum, Walid 17(10):70-75
Haworth, Joe 17(9):63-66
Hemken, Brad 17(1)31-35
Herndon, Joey 17(4):35-39
Hetherington, Michelle 17(4):58-61
Hill, Jim 17(1):59-63
Hope, James H. 17(7):49-52
Hu, Zhifei 17(1):64-68
Huber, Carl V. 17(3):54-57
Hunter, Gary 17(3):24-31
Hydrogen
Fuel cells 17(8):9-11

I

Industrial
Alternate discharge limits for iron and steel plants 17(10):18-20
Clarification controls industrial TSS 17(3):79-80
Cooling-water intake regulations 17(1):17-18; 17(2):12
Hazardous waste rules revised 17(5):16-17
Heat-loving bacteria better at removing hydrogen peroxide 17(1):10
Singapore's revised effluent standards 17(6):10
Infiltration/inflow
Detecting illicit connections and discharges 17(5):49-52
Detecting with focused electrode leak location 17(12):84-86
Managing private property laterals 17(7):26-31
Sewer modeling software 17(8):27-35
Information systems
Geographic ___ for collection system inspection data recording and retrieval 17(9):67-71
Infrastructure
ASCE Report Card on 17(6):17-22
Blending postmortem 17(7):72
EPA's 2006 clean water priorities 17(7):10
Funding sources 17(10):66-69
Future of 17(5):80
In the wake of hurricanes 17(12):112
Policy issues 17(7):6-9
Practical asset management 17(7):32-35
Reconstructing Iraq 17(10):70-75
Reducing capital project costs 17(10):62-65
Republican majority's impact on water legislation 17(1):14-15
Romanian small communities project 17(10):28
Instrumentation
Quiz 17(4):62
Integrated fixed-film activated sludge 17(3):62-66; 17(11):18-22
Iranpour, Reza 17(5):58-61
Iraq
Mosul Dam reconstruction 17(12):18
Reconstruction 17(10):70-75
Restoration of marshlands 17(6):8
U.N. program to recover Iraqi marshlands 17(11):10

J

Jacobs, Jack 17(2)31-34
Jenkins, Thomas E. 17(11):42-48
Jiminez, Jose A. 17(12):52-57
Johnson, Bruce R. 17(12):64-69
Johnson, Chandler 17(3):62-66
Johnson, Terry L. 17(11):18-22
Joyce, Mike 17(8):16-19

K

Kearney, Ray J. 17(5):58-61
Kezar, Kristi 17(7):46-48
Kinshella, Paul 17(6):61-66
Kumar, Manish 17(3):41-47

L

Laboratory
Basics of advanced clarification 17(12):64-69
Guide to stormwater protocols 17(1):18
EPA's proposal to revise CWA analytic procedures 17(1):16
EPA proposes bacteria detection methods 17(10):18
Microscopic examination of activated sludge 17(6):51-56
Sampling success 17(8):20-26
Using ferries for water monitoring 17(10):14
Lagoons
Quiz 17(1):69
Lakes
Road salt may degrade ___ quality 17(2):16-18
Lambert, Shannon 17(6):24-31
Lee, Hansong 17(5):58-61
Legal issues
Accommodating large employees 17(4):48
EC faults UK for noncompliance on wastewater laws 17(3):14

2005 INDEX

Endangered Species Act reauthorization debate 17(11):16-17
Managing private property laterals 17(7):26-31
State wetland report 17(7):10-11
Legislation
Congress hears blending policy debate 17(7):13-17
Congress pulls MTBE liability protection from energy bill 17(10):34-38
Endangered Species Act reauthorization debate 17(11):16-17
Need for national water commission 17(7):17-19
Republican majority's impact on water ___ 17(1):14-15
Working with elected officials 17(9):63-66
Lenhardt, Scott 17(6):43-45
Leong, Linda R. 17(7):53-57
Logical math
Deducing formulas 17(10):103-104
Understanding conversion factors 17(12):77
Vocational vocabulary 17(11):38-41
Long, Bruce 17(3):24-31
Long, Donna 17(9):48-53
Long, Jorj 17(1):68; 17(2):61; 17(4):49-52; 17(4):62; 17(5):62
Lonsway, Jim 17(6):67
Loranger, Steve 17(7):6-9
Lubovich, Kelley 17(9):24-25, 30-33; 17(10):39-42; 17(11):16-17; 17(12):36-42, 46-47

M

Mackey, Heather 17(10):105
Maintenance
Breaking cycle of reactive work 17(2):23-26
Communications between operations and maintenance personnel 17(7):53-57
Empowering employees to minimize CSOs 17(2):27-30
Infrared thermography 17(7):58-62
Motor current analysis, flux coil and motor circuit technology 17(7):58-62
Oil analysis 17(7):58-62
Predictive ___ 17(7):58-62
Ultrasonics and acoustics 17(7):58-62
Vibration analysis 17(7):58-62
Management
Breaking cycle of reactive work 17(2):23-26
Crisis preparedness 17(6):50
Disaster preparedness and response 17(12):74-76
Employee training 17(2): 53-56
Empowering employees 17(2):27-30
Hiring practices 17(2):48-52
Hurricane preparedness 17(3):52-53
Improving communication between operations and maintenance personnel 17(7):53-57
Knowledge transfer 17(10):90-92
Operator certification reciprocity 17(10):93-95
Public outreach 17(9):63-66
Quiz 17(9):72
Security issues for utilities 17(2):31-34
Mann, Jeff 17(3):58-61
Massart, Neil 17(3):67
McBride, Jeff 17(11):23-27
McQuarrie, Jim 17(11):18-22
Mehan, G. Tracy, III 17(6):32-37
Membrane bioreactors (MBRs)
Communities turn to recycling 17(1):36-39
For water reuse 17(8):62-64
Integrated membrane systems 17(3):41-47
Membrane filters allow for indirect potable reuse 17(8):66
Performance in 17(3):32-39
Shopping for 17(1):31-35
Trends 17(6):43-45
Mercury
Ceramic 'sponge' absorbs 17(1):23
EPA's proposal to revise CWA analytic procedures 17(1):16
Mericas, Dean 17(1):40-45
Mexico
Water resources management on U.S. border 17(5):14
Millea, Kathy 17(4):58-61
Millennium Development Goals 17(6):12-13; 17(9):16
Miller, G. Wade 17(10):76-80
Modeling
Defining critical condition of TMDLs 17(6):38-42
Morris, Deborah Sievert 17(2):27-30
Mosher, Jeffrey J. 17(10):76-80
Moyer, Jack W. 17(12):84-86
MTBE 17(10):8, 34-38
Muirhead, Woodie Mark 17(8):50-54; 17(10):96-100; 17(10):101-102; 17(11):59-60; 17(12):91-92
Mundine, Joe E. 17(5):58-61
Myers, Leland 17(3):58-61

N

Nanofiltration
Integrated membrane systems 17(3):41-47
Narayanan, B. 17(2):35-40
National Pollutant Discharge Elimination System (NPDES) permits
Airport stormwater management 17(1):40-45
EPA releases state profiles 17(3):15
Permitting policy for pesticides 17(4):19
National Water Quality Assessment Program (NAWQA)
Budget cuts threaten water quality monitoring 17(3):12-13
Water resource management 17(5):37-41
Newbigging, Mike 17(1):59-63
New Zealand
River quality reports 17(6):10-12
Neun, Gary 17(7):64
Nitrogen
Denitrifcation in anoxic zone 17(8):50-54
Evaluating denitrification filters 17(6):24-31
Increasing pollution in U.S. coastal waters 17(9):8-11
Integrated fixed-film activated sludge 17(3):62-66; 17(11):18-27
Ireland's nitrates action program 17(10):22-24
Operating protocols to remove 17(5):53-57
Nonpoint source pollution
Road salt may degrade soil, lake quality 17(2):16-18
Nutrient removal
Anaerobic bacteria denitrify livestock wastewater 17(12):6
Basics of advanced clarification 17(12):64-69
Chesapeake Bay nutrient limits 17(3):14
Denitrification's effects on alkalinity and pH 17(10):96-100
Device removes phosphorus 17(12):6-8
Effect of hydraulic design on 17(8):40-44
Integrated fixed-film activated sludge 17(3):62-66; 17(11):18-22; 23-27
Membrane bioreactors 17(1):31-35
Nitrification's effects on alkalinity and pH 17(10):96-100
Nitrogen 17(5):53-57; 17(8):40-44; 17(8):50-54
Phosphorus 17(8):40-44
Reliable control of dissolved oxygen 17(2):41-43

O

Oceans
Beaches and illnesses 17(9):11-14
Biology changing 17(8):6
Call to end fishing discards 17(2):20
Dumping in China 17(3):14
Committee on ___ policy 17(4):21-22
Global warming indicated in new data 17(5):18
Perfluorinated chemicals in Scandinavian waters 17(1):19-20
Silver contamination in Asia 17(8):14-15
Odor
Control using biofilters 17(3):54-57; 17(5):26-32; 17(11):75-76
Quiz 17(3):67
Solar-powered circulators to minimize 17(12):99
Tool kit for handling 17(3):58-61
Oliver, Meghan 17(12): 28-33, 35-36
Olstein, Myron 17(10):62-65
Ong, Ting 17(1):50-58
Operations and maintenance
2005 U.S. EPA Clean Water Act Awards 17(11):49-58
Communications between operations and maintenance personnel 17(7):53-57
Computerized ___ manuals 17(9):60-62
Database tool for prioritizing 17(4):49-52
Optimizing energy management 17(7):46-48
Practical asset management 17(7):32-35
Short solids retention time for sludge bulking 17(4):58-61
Optimization
Aeration 17(7):49-52
Anoxic zones for denitrification 17(8):50-54
Centrifuge thickeners 17(1):59-63
Variable frequency drives for aeration 17(11):42-48
Orange County, Calif. 17(1):50-58; 17(4):58-61
Owens, Ashley 17(3):54-57
Ozone
Quiz 17(10):105

P

Palomo, Mónica 17(12):58-63
Parker, David 17(6):24-31
Parker, Denny S. 17(12):52-57
Pearce, Bill 17(3):32-39, 41-47
Perchlorate
Controversy continues 17(4):23-27
pH
Biological effect upon 17(10):96-100
Phosphorus
And wetlands 17(5):13; 17(8):7-8
Removal in Everglades 17(4):40-43
Plant Profile
City of Corning, N.Y 17(8):56-57
Haikey Creek in Broken Arrow, Okla. 17(5):63-64
Jacksonville, Ark. 17(4):63
King's Landing in Rochester, N.Y. 17(6):68-69
Mattabassett District in Cromwell, Conn. 17(11):62-63
Richland, Wash. 17(3):68-69
South Coast Regional in Frankford, Del 17(7):65-66
Teton Village, Wyo. 17(2):62-63
West Hickman Creek in Nicholasville, Ky. 17(9):73
Pollutant control
Airport stormwater management 17(1):40-45
Cadmium and oysters 17(10):59-60

EDCs in wastewater 17(3):24-31
Handbook for watershed managers 17(1):17
Taiwan's river cleanup strategy 17(2):13
Untreated wastewater in Hong Kong 17(9):19
Porter, Raymond 17(5):33-36
Powell, John M. 17(7):53-57
Prentiss, Doug 17(3):52-53; 17(5):46-47; 17(10):86-88; 17(12):74-76
Pretreatment
2005 U.S. EPA Clean Water Act Awards 17(11):49-58
Primary treatment
MBR performance in 17(3):32-39
Process control
Correlating to operating parameters 17(5):53-57
To control filamentous sludge bulking 17(4):53-57
Proctor, Donald 17(10):103-104; 17(11):38-41; 17(12):77
Professional development
An engineering mind is a terrible thing to waste 17(11):88
Communications skills key to success 17(2):72
Empowering employees 17(2):27-30
Meet your way to success 17(8):72
Pursuing a graduate degree 17(6):80
Pryputniewicz, Susan 17(9):67-71
Public health
Chinese municipality pushes indoor toilets 17(1):18
EDCs in wastewater 17(3):24-31
Emerging viruses 17(2):18-19
Hazards of wet work 17(9):35
Lead in drinking water 17(12):10-11
Manganese inhaled during showers 17(10):60
POPs linked to respiratory diseases 17(4):8
Shanghai to clean up restrooms 17(1):20
Sick from being too clean 17(2):14-16
Trihalomethanes may not increase miscarriages 17(11):6
Untreated wastewater in Hong Kong 17(9):19
Water reuse guide 17(1):18
WERF protocol for investigating health impacts 17(12):8-10
West Nile virus 17(10):42-46
Pumps
Advantages of high efficiency pumps 17(7):46-48
Avoiding clogging with rags 17(10):194-195
Flange facers 17(10):196
Flow control improves performance 17(1):70-71
Modeling of self-cleaning pump station 17(6):61-66
Quiz 17(8):55
Variable- versus constant-speed 17(6):57-60

Q

Quigley, Chris 17(5):26-32

R

Rectanus, Robert 17(6):24-31
Regulations
Airport stormwater management 17(1):40-45
Alternate discharge limits for iron and steel plants 17(10):18-20
Arsenic removal 17(5):23
Broader approach to watershed management 17(6)32-37
Cooling-water intake 17(1):17-18
Drinking water contaminant list 17(5):17
Drive growing interest in MBRs 17(6):43-45
EDCs in wastewater 17(3):24-31
Hazardous waste rules revised 17(5):16-17
Hydrogen fuel cells 17(8):9-11
Need for national water commission 17(7):17-19
New EPA administrator 17(6):14-16
Safety 17(2):47
Research
Algal blooms in Great Lakes 17(10):59
Anaerobic bacteria denitrify livestock wastewater 17(12):6
Arsenic in drinking water 17(12):50
Arsenic levels depend on bacteria populations 17(9):15
Arsenic removal 17(5):23
Beaches and illnesses 17(9):11-14
Budget cuts threaten water quality monitoring 17(3):12-13
Byproduct of chloramine disinfection highly toxic 17(1):6
Cadmium and oysters 17(10):59-60
Call to end fishing discards 17(2):20
Caution urged in microbial source tracking 17(5):24
Ceramic 'sponge' absorbs mercury 17(1):23
Coal ash helps filter arsenic 17(5):6
Constructed wetlands 17(5):13; 17(8):7-8; 17(9):6-8
Decline in Georgia's blue crab population 17(3):9
Device removes phosphorus 17(12):6-8
Duckweed sequesters persistent organic compounds 17(1):6-8
Energy generated from manure 17(12):8
Farm runoff and algal blooms 17(4):8-10
Geogrids for erosion control 17(12):50
Global warming changes hydrological cycle 17(5):10-12
Global warming indicated in new data 17(5):18
Hazards of wet work 17(9):35
Heat-loving bacteria better at removing hydrogen peroxide 17(1):10
Increasing nitrogen pollution in U.S. coastal waters 17(9):8-11
Lead in drinking water 17(12):10-11
Lunar cycle affects coastal water quality 17(11):7
Manganese inhaled during showers 17(10):60
Microbes could cleanse arsenic contamination 17(2):8-9
MBR performance 17(3):32-39
MTBE in groundwater 17(10):8
Nutrient runoff affects commercial fishing 17(6):6
Ocean biology changing 17(8):6
Phytoremediation 17(8):6-7
Plants absorb more contaminants 17(5):6-10
POPs linked to respiratory diseases 17(4):8
Perfluorinated chemicals in Scandinavian waters 17(1):19-20
Recycling vital to space exploration 17(2):20-22
Reservoirs may accelerate spread of invasive species 17(9):6
Riverbed prevents chemical contamination 17(3):9-10
Rivers database 17(8):12-13
Road salt may degrade soil, lake quality 17(2):16-18
Rubber lining in canals 17(12):48-49
Sandia experiments 17(1):8-10
Silver contamination in Asia 17(8):14-15
Software to minimize pesticide drift 17(12):11-13
Students encouraged to help solve wetlands problems 17(5):24-25
Synthetic musks evade treatment 17(2):6
Time promotes better oil–water separation 17(11):8
Toxic metal mystery unlocked 17(2):6
Tree growth stunted by acid rain 17(8):14
Tree rings indicate water availability 17(12):51
Trihalomethanes may not increase miscarriages 17(11):6
Using ferries for water monitoring 17(10):14
Viruses in groundwater 17(1):30
Water reuse for crop irrigation 17(12):48
WERF protocol for investigating health impacts 17(12):8-10
Resotka, Peter W. 17(2):47
Reverse osmosis
Integrated membrane systems 17(3):41-47
Potable water for military personnel 17(11):74-75
Richardson, Andrew W. 17(6):61-66
Risk assessment
Security improvements 17(2):57-60
Ritter, James 17(4):49-52
Rivers
China rivers major source of pollution 17(3):14
Database 17(8):12-13
Endangered Species Act reauthorization debate 17(11):16-17
Global warming changes hydrological cycle 17(5):10-12
Improved water quality in U.K. ___ 17(9):16
Michigan's Rouge ___ 17(5):49-52
New Zealand quality reports 17(6):10-12
Taiwan's river cleanup strategy 17(2):13
Riverbed prevents chemical contamination 17(3):9-10
Rogers, Randy 17(9):48-53
Rowatt, Danny J. 17(4):48; 17(6):50; 17(7):44-45; 17(9):58-59
Roxburgh, Ruth 17(4):28-33
Rutkowski, Michael 17(9):67-71
Rutt, Ken 17(3):62-66

S

Safety
Accommodating physically large employees 17(4):48
Chemicals 17(10):86-88
Crisis management 17(6):50
Disaster planning and response 17(12):74-76
Disinfection chemicals 17(5):46-47
Drying biosolids to Class A specifications 17(4):35-39
Hepatitis prevention 17(9):58-59
Hurricane preparedness 17(3):52-53
Importance of ___ program 17(2):47
In-line pipe inspection 17(12):87-89
Security issues for utilities 17(2):31-34
Summertime issues 17(7):44-45
Quiz 17(2):61
Salveson, Andrew 17(2):35-40
Sandul, Duane 17(9):63-66
Sanks, Robert L. 17(6):61-66
Schmitt, Timothy M. 17(2):57-60
Schuler, Peter F. 17(12):52-57
Scruggs, Caroline 17(3):24-31
Security
EPA offers emergency response exercises on CD 17(5):14-15
Following a vulnerability assessment 17(2):57-60
GAO report on wastewater system risks 17(5):15-16

2005 INDEX

Implementing necessary measures 17(7):19-24
Issues for utilities 17(2):31-34
Seda, Jim 17(3):62-66
